> Toronto, ON

## Summary

Experienced full-stack web developer with a focus on front-end work using `React`

I encourage productive discussions with Product, Design, and Engineering to make decisions based on our collective knowledge

## Education

**Bachelor of Computer Science**
University of Waterloo
Class of 2016

## Projects

**kevincho.ca**
A personal website acting as a portal to different links

**weather-outfit**
An app that displays the weather and suggestions on what outfit to wear

**youtube-search**
Google Chrome extension that searches selected text on YouTube

## Experience

**Web Engineer @ Ritual Co.**
Aug 2020 – Jun 2023

– Worked in front-end web development on a food pickup/delivery app using `React, Redux, Next.js`

– Contributed to a new food catering web app targeting office spaces with `React, React Query, TypeScript`

– Led projects through technical design docs, review/feedback cycles, and management of feature scope and iterations

– Owned and maintained DevOps by integrating tests, builds, tagged releases, and deployments into the CI/CD process using `webpack, rollup.js, semantic-release, Jenkins, Docker`

– Increased code confidence by writing unit and E2E tests with `Jest, React Testing Library, Playwright`

**Software Engineer @ Shutterstock**
Jan 2017 – Jun 2020

– Worked in full-stack web development on a platform created to connect freelancing photographers with brands

– Participated actively throughout the development process including architecture planning, outlining stories (prioritizing, point weighing, risk analysis), implementing features, writing tests, and reviewing pull requests

– Coded full-stack using tools like `JavaScript, React, Redux, AngularJS, MongoDB, Postgres`

– Wrote unit tests in `Jest, Enzyme` and UI tests in `Cypress`

**Software Developer @ Vision Critical**
May – Dec 2015 (Contract) – Full description on [LinkedIn](LinkedIn)

**.NET Application Developer @ CrossChasm**
Jan – Apr 2014, Sep – Dec 2014 (Contract) – [LinkedIn](LinkedIn)

**Programmer Trainee @ Qualicom Innovations**
May – Aug 2013 (Contract) – Full description on [LinkedIn](LinkedIn)

**Junior Programmer @ InfoMax Technologies**
May – Aug 2012 (Contract) – Full description on [LinkedIn](LinkedIn)
